Fast fix door handles

Easy-Fix fast fix door handles combine good design with extremely convenient installation. Handles can be installed in a snap, without the use of tools.

In the case of fast fix, there are no screw holes penetrating the shield, giving the minimalist low shield of the door handle a clean and stylish look. Door handles are available in a range of surface finishes and are suitable for all door types. Ask for an offer!

The product range includes four different models:

VAL5

VAL201

VAL202

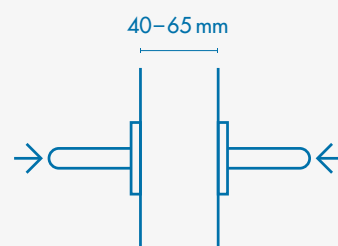

VAL208

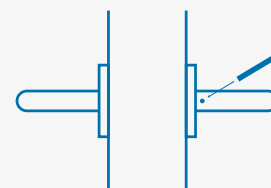

INSTALLATION

The door handles are attached to the door by pressing the door handles together with the Easy-Fix fastening.

REMOVAL

To remove the handle, use a hex key to unscrew the pin.
